

Universität für Bodenkultur Wien
Department für Bautechnik und
Naturgefahren
Institut für Geotechnik

JOIN US at the Institute of Geotechnical Engineering, BOKU, Vienna

We are looking for **two PhD candidates & a post-doc** in constitutive modelling, numerical simulation and laboratory test.

We have immediate opening for three research positions in Vienna. Two fully funded PhD positions for 3 years and one fully funded postdoc position for 2 years are available at the Institute of Geotechnical Engineering, Universität für Bodenkultur, Vienna, Austria. Join our dynamic research team of highly motivated individuals in a multicultural environment. Information about our institute is available at: <https://boku.ac.at/en/baumat/igt>

We offer competitive salaries, i.e. 30,000 Euro for the PhD positions and 54,000 Euro for the postdoc position. The salary is complemented by full social insurance including pension.

One PhD position is dedicated to constitutive modelling and numerical simulation, while the other PhD position is on laboratory test. Some experience with centrifuge model testing will be a benefit. For the postdoc position some knowledge of German language will be a benefit.

Apply for the positions by submitting the following documents to geotech@boku.ac.at:

- Curriculum vitae;
- Copy of certificates of academic degrees and marks;
- List of publications and research activities;
- Recommendation letters by supervisor;
- Research statement

(Vienna, April 2019)
